

Physician Ownership Disclosure Alternative Sources for Medical Treatment

Your Health Care Provider has determined that you require further medical treatment and has recommended that you receive such treatment at Pima Heart ASC. Your physician may have less than or equal to 5% ownership in this surgery center. An interest in this facility enables the physician to have a voice in the administrative and medical policies of the facility.

The Center also wishes to make you aware of the fact that there are other facilities available in our medical community where the same procedure(s) can be performed.
